2011 Audi A3

Tpms Sensor

Pressure Monitoring Sensors, are a warning system that warns a vehicle's operator of an unsafe change in the air pressure in one or more of the tires. AUDI TPMS readings are provided by pressure sensing transmitters ,TPMS, mounted inside each tire and sent to a central computer (ECU) for display on the dashboard.

installed new  
tires/rims, getting  
TPMS light**

Buying two sets of sensors is very expensive and installing new sensors on the car often means re-initializing the system to recognize the sensors. A hassle and an un-needed expense. Audi, has standardized on the indirect method since

## **A3 - Audi - TPMS**

### **Sensors**

It seems there are a lot of RS3 owners who want direct TPMS option that would show tire pressures and temperatures on virtual cockpit screen but don't want to eat up the cost of dynamic plus package. The good news is that direct TPMS system can be retrofitted and it's not too difficult to do so I think I want to
