The primary purpose of a quality framework is to support services to self-evaluate their own performance. The same framework is then used by inspectors to provide independent assurance about the quality of care and support. By setting out what we expect to see in high-quality care and support provision, it can help support improvement too.

A quality framework for care homes for older people

This paper introduces a framework that is developed to assist project managers in facilitat- ing stakeholder management and requirement engineering, especially in the project initiation phase. The framework optimizes the value creation of the project through stakeholder identification, classification, and re- quirement engineering.
