### Honda Engines | Troubleshooting tips

Just acquired a Honda GX390 13HP engine, bought it blind so expected to find something wrong. On pulling the starter rope the engine reaches the compression stroke but won't turn over the compression stroke. If you take the spark plug out the engine will then turn over the compression stroke.

### Honda GX390 engine issues | Pitchcare

They were the Ex-Cell model with the Honda 13hp GX390 commercial engine and the General pump - 4gpm and 3700 psi. I couldn't get either one to start despite following the instructions to the letter. After about 20 pulls, if it did start, it would stall right away.

Do you guys have trouble with Honda GX coils just dying? I had a 5.5hp GX on my pressure washer...no spark. I bought a stump grinder with a 13hp GX and its literally perfect in every way and then all of a sudden...no spark. I ordered a new coil for the stump grinder but I can't figure out if this is just me or if this is a common thing.

Re: Honda GX390 kicks back when starting. Either the valve clearance isn't right or the cam's decompressor is bad. Although the spring is on the lever and the lever rotates still doesn't mean the part that actually bumps the lifter isn't badly worn or broken without actually removing the cam and checking.
