The WNDR3700 can be used as an Access Point, but only when it is physically wired to the main router. If your house is wired for Ethernet or you are able to install Ethernet (Powerline can used as an alternative), then you can enable AP Mode in the WNDR3700's setup via ADVANCED > Advanced Setup > Wireless AP.

WNDR3700: how to create accespoint and general ... - Netgear

A wireless dongle is a wireless Client, and connects to a wireless router. It does not perform any repeating function, and is definitely not the same as using a Repeater. Repeating and bridging functionality on the WNDR3700 is used to extend a wireless network beyond its normal range, when wireless Clients are unable to connect to a primary router due to a weak signal, caused by distance, walls, or other obstructions.
