RotorWay was the first to mass market kits worldwide, the first to offer exclusive training in RotorWay helicopters, and the first to manufacture its own engine. We also were the first to introduce the ECU (Electronic Control Unit) System in our kits, the first in any general aviation aircraft at the time.

hours since complete overhaul done at Rotorway.

Rotorway : Exec 152 upgraded to Exec 162 specs,.. Full ...

This project started with the purchase of a standard Exec 152 in September of 2005. Currently, it has incorporated all the updates of a 162F model with the exception of a 1.75" rotor mast. My most recent upgrade is the installation of the Talon A600N engine. I did this engine upgrade and retained all my original 162F "steam" gauge instrumentation.

RotorWay-Rework

Early in our research into RotorWay helicopters, we were surprised to discover that operators are required, by factory instructions, to do an extensive valve train inspection and adjustment procedure every 25 hours of operation. We were even more surprised to discover that the RW engine uses solid lifters and lash caps in the valve train.
