The below images were captured using a outdoor IR CCTV Camera and a CCTV DVR capable of recording at D1 resolution. The test was performed at night with the cameras IR turned on. This is why the images where captured in black and white. D1 CCTV Resolution D1 CCTV resolution is 704 x 480 pixels and is the highest resolution the CCTV system can record at.

### CCTV Resolution - Security Cameras and Video Surveillance ...

It was about time CCTV systems were capable of recording resolutions higher than D1 known also as 720x480. The revolution in CCTV has began. New CCTV Cameras were capable of 700TVL resolution. Unfortunately when using 700TVL resolution cameras with D1 Digital Video Recorders, we couldn't take advantage of better quality. To solve this problem manufacturers came with a new resolution known as WD1 (Wide D1) which is often also described as 960H or just 960x480.

### New DVR's. New Resolutions: CIF, D1, WD1, 720p, 1080p ...

The two most popular DVR resolution types are CIF and D1. CIF is defined as 320x240 pixels and D1 is 704x480. As you can tell, D1 is 4 times larger than CIF. This entails that the raw analog signal of the camera will be compressed less, giving you better detail.
