SOLUBILITY CURVE WORKSHEET

The solubility curves for potassium nitrate and five solids, A, B, C, D and E, are shown for the temperature range $0\text{ }^{\circ}\text{C}$ to $100\text{ }^{\circ}\text{C}$. The solubility is given in grams of the solid that will dissolve in 100 grams of water. For each question, select from the graph the letter A, B, C, D or E that represents the solid described.
