From A Wiki of Ice and Fire. Jump to: navigation, search. A shadowcat, by Kevin Catalan ©. Shadowcats are large felines found throughout Westeros, including the lands beyond the Wall, the Mountains of the Moon, the northern riverlands, and the Red Mountains of Dorne. There is also a constellation of stars named the Shadowcat.

Shadowcat - A Wiki of Ice and Fire

Shadow Cats were created with dark magic by Julija's brothers. Vasile and Avram, bred in pairs and trained through pain. They can be as small as house cats but can grow or shrink, depending on where they are. They prefer shadows, keeping them the size of a pet, but when they attack, they can be the same size and build as a Saber-toothed Cat. They are also insubstantial, making attacking them ...

Shadow Cats

In the books In the A Song of Ice and Fire novels, Shadowcats have no direct analogue to any real-life species of Big Cat, although they are not quite as remarkable as direwolves. Author George R.R. Martin has stated that while Shadowcats are bigger than cougars, they are not as big as tigers. Shadowcats have thick black fur with white stripes.
